DETAILED ACTION

Response to Amendment

1. Acknowledgement is made of Applicant's amendment received on January 04, 2006. The Applicant has amended claims 1, 2, 9, 14, 16, 19, 20, 25, 31, 39, 40, 43, 44, 47, 53-56, 62 and 63, cancelled claims 10, 59-60 and 66, and added new claims 67-70. Currently, claims 1-9, 11-58, 61-65 and 67-70 are pending in the application.

Election/Restrictions

- 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, 11-24, 38, 48-52, 57-58, 61-64 and 70 are drawn to a fluorescence correlation spectroscopy instrument comprising a sample chamber, classified in class 356, subclass 417.
 - II. Claims 25-37, 39-47, 53-56, 65 and 67-69 are drawn to a fluorescence correlation spectroscopy instrument that does NOT include a sample chamber, classified in class 356, subclass 417.
- 3. Newly submitted claims 67-69 and original claims 25-37, 39-47, 53-56, 65 which have been amended to depend on claims 67-69, are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The species represented by Groups I and II are independent or distinct because the fluorescence correlation spectroscopy instrument of Group I includes a sample chamber, whereas the fluorescence correlation spectroscopy instrument of Group II does NOT include a sample chamber. For example, the fluorescence correlation spectroscopy instrument of Group II can be used for detecting particles

Application/Control Number: 10/633,385 Page 3

Art Unit: 2877

in air or in the atmosphere. <u>Claim 1 is generic</u> to patentably distinct species of Group I and Group II above.

- 4. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 5. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 67-69, and original claims 25-37, 39-47, 53-56 and 65, which have been amended to depend on claims 67-69 have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
- 6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Ex-Parte Quayle

7. This application is in condition for allowance except for the following formal matters:

Claims 67-69, and original claims 25-37, 39-47, 53-56 and 65, which have been amended to depend on claims 67-69 have to be cancelled since they have been withdrawn from consideration as being directed to a non-elected invention. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Application/Control Number: 10/633,385

Art Unit: 2877

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

- 8. Claims 1-9, 11-24, 38, 48-52, 57-58, 61-64 and 70 are allowable.
- 9. Claims 1 and 70 are allowable because none of the prior art documents disclose a fluorescence correlation spectroscopy instrument comprising a sample flow chamber, and a correlator coupled to the detector for providing autocorrelation data, in combination with the rest of the limitations of the respective claims.
- 10. Claims 2-9, 11-24, 38, 48-52, 57-58 and 61-64 are allowable because they are dependent on independent claim 1, or, an intermediate claim.

Conclusion

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Roy M. Punnoose** whose telephone number is **571-272-2427.** The examiner can normally be reached on 9:00 AM - 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J. Toatley, Jr. can be reached on 571-272-2800 ext.77. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
